

Swiss Graduate Jobmarket Monitor

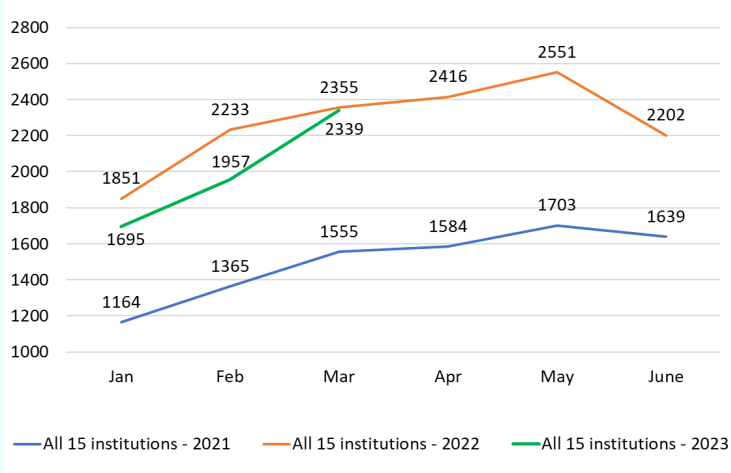

Indicator J – Job Ads

This indicator monthly measures the published job ads on the platforms of 15 Career Services of Universities & Universities of Applied Sciences in Switzerland. The focus is on tracking job ads for graduates, e.g. career entry positions, traineeships, internships etc.

Development overall

In January, 1695 job ads were posted, followed by an increase in February with 1957 ads. March recorded a substantial surge in the number of job ads, reaching 2339. Despite a decrease in the number compared to the same period last year, the overall trend indicates positive growth in the number of job ads posted for graduates in Switzerland, suggesting a favorable job market in the coming months.

Comparison number jobs ads 2021 - 2023

Monthly comparisons

The year started with a decrease of 10% in January. However, there was a recovery in February with an increase of 15%. In March, the growth rate was even higher at 20%, resulting in an overall positive trend in the first quarter of 2023. Overall, the quarterly performance followed the same patterns compared to 2021 and 2022 excepted for the month of March which kept growing.

Change in job Ads compared to previous month 2021-2023

From university to university

For Q1/2023, the university-to-university comparison shows a mixed picture. January saw a significant decrease in the number of job ads published by Career Services, with half of them reporting a negative growth rate. February rebounded strongly, with over 60% of Career Services reporting a growth rate above 30%. March also showed a positive growth rate overall, with over 60% of Career Services reporting a growth rate above 10%.
