

THE SWISS GRADUATES JOBMARKET MONITOR

A CSNCH PROJECT

Indicator S – Students

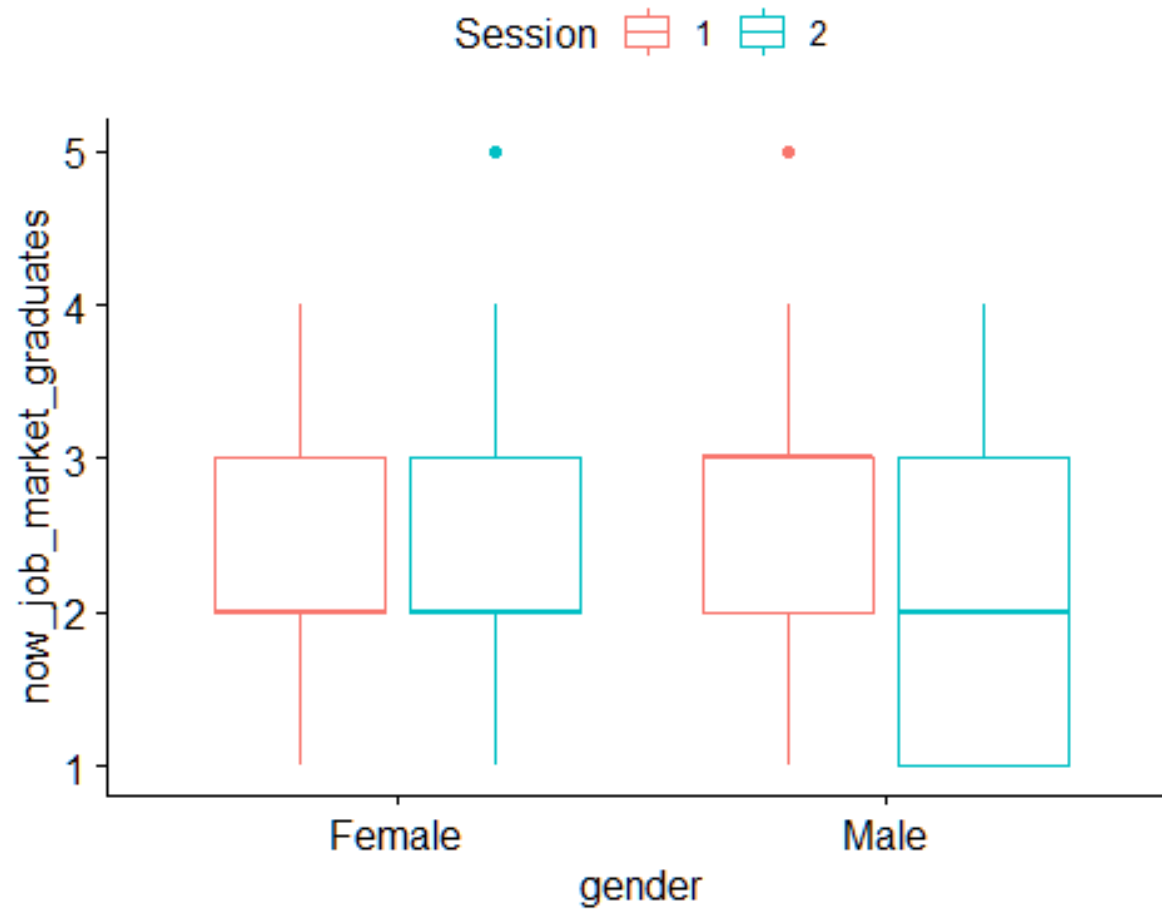

- Survey shared twice on **social media**
- **383** students participated in December 2020
- **464** in April 2021

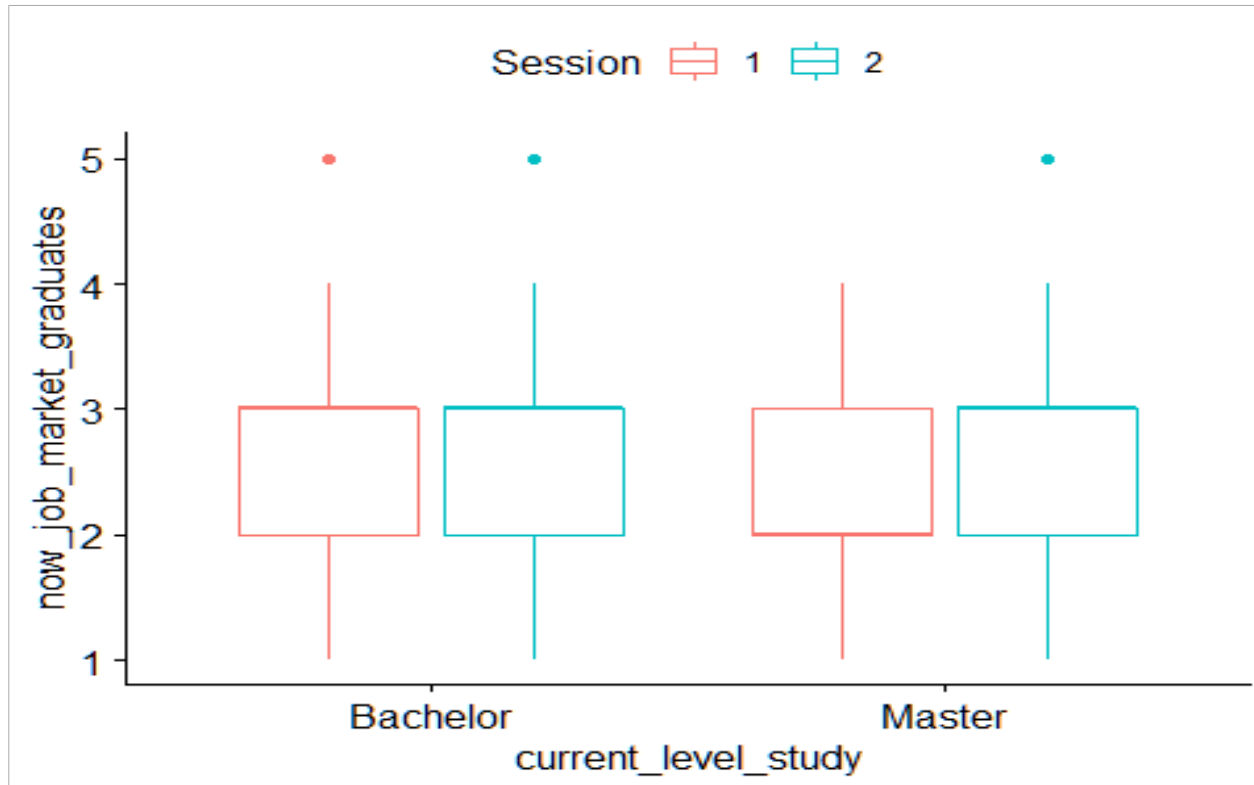

Findings:

1. In December, **Female students** were more pessimistic about the job market than male students but in April there is no difference
2. Increase of optimism for **Master students** (2- > 3) / No change for **Bachelor students** (3 - > 3)
3. In April, the **pandemic affected the career plans of** Bachelor and Master students. In December, it was not the case for the Bachelor, there were quite not affected (2).
