

Swiss Graduate Jobmarket Monitor

Indicator J – Job Ads

This indicator monthly measures the published job ads on the platforms of 15 Career Services of Universities & Universities of Applied Sciences in Switzerland. The focus is on tracking job ads for graduates, e.g. career entry positions, traineeships, internships etc.

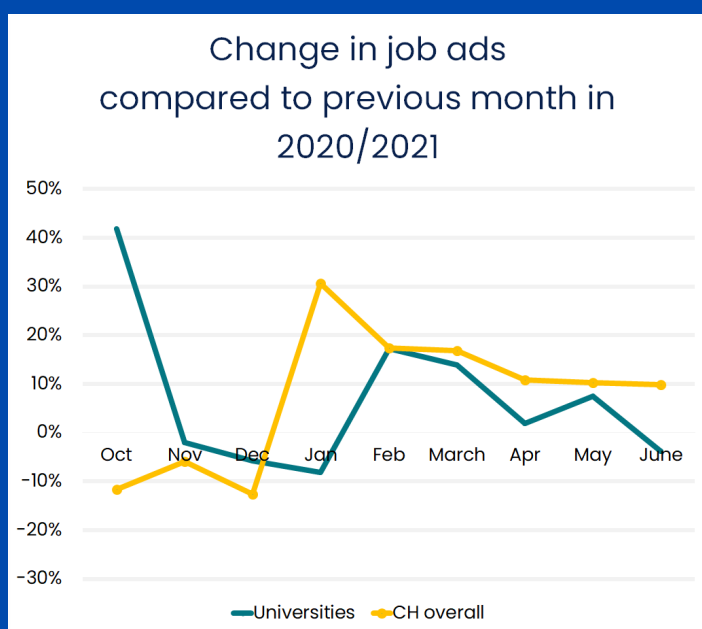

Development overall

Overall, the total number of job ads from all participating Career Services was increasing during the last six months. In Q2/2021 the monthly number of job offerings exceed the numbers from Q1/2021 and Q4/2020. In June, 1,639 job ads were published.

Monthly comparisons

For the beginning of Q2/2021, the evaluation of the development of job ads shows a continuation of the positive trend for both the job market for graduates (green line) and the overall Swiss job market (yellow line). In June, the job market for graduates shows a decline while the overall job market is still growing.

From university to university

Comparing the growth rates per university shows that there are still significant differences existing between the Career Services: one university reported an increase of +190% in May 2021 while others reported a decline of up to 40% in the same month. More than 50% of the Career Services had a negative growth rate in June.
