

Swiss Graduate Jobmarket Monitor

Indicator J – Job Ads

This indicator monthly measures the published job ads on the platforms of 15 Career Services of Universities & Universities of Applied Sciences in Switzerland. The focus is on tracking job ads for graduates, e.g. career entry positions, traineeships, internships etc.

Comparison number jobs ads - 2021-2022

Development overall

Overall, the total number of job ads from all participating Career Services increase during the last six months. There is a slight positive trend in Q2/2022 observable with 2551 published job ads in May. There are about 600-900 more jobs ads published in 2022 than in 2021.

Monthly comparisons

After a major increase of total job ads in February 2022, a decline appear in March and April 2022. Since then, publication rates have been on the rise. In 2021, the situation was similar with a decline of the job ads published. However, this year is the decrease in June is more important than last year.

From university to university

Comparing the growth rates per university shows that there are still significant differences existing between the Career Services: one university reported an increase of +150% in May 2022 while others reported a decline of up to 57% in the same month. More than 50% of the Career Services had a negative growth rate in June. In 2021, the situation was quite the same.
